You Rock!

By choosing handmade goods from a small business, you help the world be a better place. We are always on the look for eco-friendly solutions. From local sources, fair pay for our associates to reasonable prices for you.

Our primary goal is to make products that will last a long time, that will never go out of style and will make as little impact on the environment as possible.

We encourage you to buy only as many tiles and hooks as you need. Buying less is the first step to saving the environment. If you find out that you need more, we are here and will be here for you.

BOX CONTAINS:

- Tiles with hooks
- Decorative tiles
 - Screws
- Raw wall plugs
- Instructions

TOOLS YOU WILL NEED:

- Level
- Masking tape
- Drill machine
- Drill bit 6mm (15/64" US)
- Sharp pencil to mark the holes

MOUNTING INSTRUCTIONS:

- I suggest you first make a test set on the wall.
- Stick it to the wall with the help of masking tape. Make a loop with it with the sticky side out and tape it to the back of each tile.
- Tape them to the wall, and you can still move them around until you find the perfect setting.
- Use the level to make sure the lines are straight.
- When you are happy with the settings, stick the pencil through the screw hole to mark the spot on the wall.
- Drill the holes to the wall. Use drill bit size 6mm (15/64" US) and screw the tiles in.
- Tape the remaining decorative tiles to the wall.

CAREFUL

The mounting tape is quite strong. It can rip the paint from the wall. Make sure it's in the right place before you press on it for a good grip.

MISSED THE PERFECT SPOT?

If you need to remove it, reach behind it with dental floss and cut it off the wall. If some tape remains on the wall, you can remove it with nail polish remover.

Shilpa Myadam

Amazing communication and very friendly. I ordered it for my daughter's room and Anita helped me choose the colours which went perfectly well with the purple coloured wall in her room. Would definitely order again.

BUY ONLY AS MUCH AS YOU NEED

You can always add more as your family's needs grow. Add more from the bottom up, for the kids can reach them. Add more colors for each member of the family.
